### Introduction

This appendix contains an alphabetical list of official names of countries, alternative names of countries, dependencies, and other areas of special phytosanitary interest (**not** all inclusive). Use this appendix to identify the following for listed countries (in order of the columns in [Figure 2-2-1](#)):

1. Official name of countries, islands, or dependencies
2. Two-letter code
3. Three-letter code
4. Approved name
5. Summary reference

The two-letter code is the country's nationality abbreviation provided in the International Organization for Standardization (ISO) publication 3166 and may be used for the purpose of completing operational forms.

The three-letter code is the country's nationality abbreviation provided in EXCERPT's Country Code List.

The approved name of the country is the country name entered on Federal plant export certificates and is maintained at the title of export summaries in EXCERPT.

The summary reference is the location or status of the import requirements of the country in EXCERPT. See [Table C-1-1 on page C-1-2](#) to understand the different summary references you will find in this appendix.
